Meta Data Embarrasses Danish Prime Minister

The Sydney Morning Herald is reporting that the Danish Prime Minister was politically embarrassed when the Meta data in a Microsoft Word document revealed that the original author of his New Year's speak was a well known extremist. Read the article at:

This newsletter is dedicated to raising awareness about the Desktop Publishing Threat to Information Security and to disseminating information that will help mitigate these risks. Our newsletter is published aperiodically when there is news to report. We will not clutter your inbox with idle chatter when there is nothing significant or useful to say. This newsletter is available free of charge to Government personnel and to certain contractors responsible for the generation and protection of National Security Information. Contractor subscriptions are at the discretion of SRS Technologies.

Suggestions and comments are always welcome. If you do not wish to receive this newsletter, please e-mail us and we will gladly remove you from the list. All EDS related correspondence should be sent to rhackett@stg.srs.com.
